### DERMASWEEP TREATMENT CONSENT FORM

I hereby authorize **Arturo Quintanilla, MD/DBA Desert Medical Rejuvenation** to perform a DermaSweep Exfoliating Treatment. I understand that my results may not be perfect. In the case of DermaSweep, the number of treatments necessary will vary among individuals and the areas being treated. \_\_\_\_\_ **(Please initial)**

DermaSweep is the most advanced non-invasive exfoliation procedure available today. The technology used for your procedure was developed in the United States and has been used in thousands of procedures. \_\_\_\_\_ **(Please initial)**

Indications for use for DermaSweep include the treatment of fine wrinkles, blackheads and whiteheads, sun-damaged skin, superficial age spots, oily skin, and for epidermal peeling of the face, neck and other parts of the body. \_\_\_\_\_ **(Please initial)**

10. Rarely scarring

The procedure involves the use of a vacuum to increase blood circulation in the treated area, and the DermaSweep wand to remove the epidermal layer of the skin in conjunction with an infusion of topical skin solutions. The combination of removing the epidermal layer and increasing blood circulation, stimulates collagen and fibrin formation to create a treatment of the affected area. \_\_\_\_\_ **(Please initial)**

The treatment fees have been discussed and I understand them. \_\_\_\_\_ **(Please initial)**
