DISCLAIMER

Informed consent documents are used to communicate information about the proposed surgical treatment of a disease or condition along with disclosure of risks and alternative forms of treatment(s). The informed consent process attempts to define principles of risk disclosure that should generally meet the needs of most patients in most circumstances.

However, informed consent documents should not be considered all-inclusive in defining other methods of care and risks encountered. **Desert Medical Rejuvenation** may provide you with additional or different information that is based on all the facts in your particular case and the state of medical knowledge.

Informed consent documents are not intended to define or serve as the standard of medical care. Standards of medical care are determined based on all the facts involved in an individual case and are subject to change as scientific knowledge and technology advance and as practice patterns evolve

It is important that you read the above information carefully and have all your questions answered before signing the accompanying consent form.

By my signature below, I certify that I have read and fully understand the contents of this permission form. I was given the opportunity to have **Desert Medical Rejuvenation** cover any question or clarification I might have prior to signing this consent and thereby grant permission to perform Fillers on me by **Desert Medical Rejuvenation**.
